Kadiyam Gopala Krishna Nursery

Established in 1980 with a promise to promote greenery, we are a friendly nursery committed to providing high-quality plants. Every customer is heartily welcomed into an atmosphere of lush greenery and quality service.

We are the leading producers and suppliers of ornamental plants, houseplants, medicinal plants, seasonal plants, avenue trees, and fruit-bearing varieties in the East Godavari District. We also provide expert landscape development services. All our plants are cultivated in-house, ensuring superior quality and care.

Our Infrastructure

Equipped with modern facilities, our infrastructure supports large-scale plant production and timely delivery. Our packaging professionals ensure safe delivery using high-quality materials.

Our Vision

To be the most trusted and innovative plant nursery and landscape service provider in East Godavari and beyond, promoting a greener, healthier, and more sustainable environment.

Our Mission

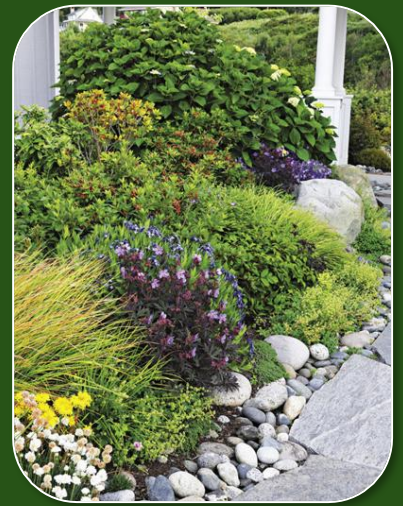

- ✿ Supply a diverse range of high-quality ornamental, medicinal, fruit, and seasonal plants.
- ✿ Promote green living across homes, businesses, and communities.
- ✿ Ensure excellence in plant health, customer service, and delivery.
- ✿ Innovate in horticulture and landscaping to beautify spaces.
- ✿ Operate with integrity, sustainability, and respect for nature.

Our Plants

landscaping plants organized by category, with brief explanations to help you understand their roles in garden.

Landscaping Plants

Bonsai is the Japanese art of cultivating miniature trees that mimic the shape and scale of full-sized trees.

Bonsai Plants

Bamboo is a fast-growing, woody-stemmed grass that can resemble a tree or shrub.

Bamboo Plants

Decorative plants are grown primarily for their aesthetic value—such as beautiful foliage, colorful flowers, unique forms.

Decorative Plants

Our Plants

Aquatic plants are plants that live in or on water or in soil that is permanently saturated with water.

Aquatic Plants

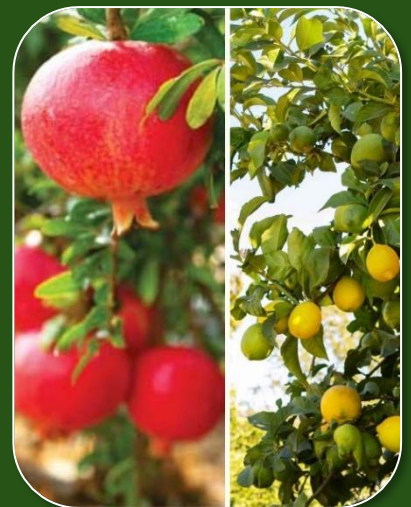

Flower plants, also called flowering plants or angiosperms, are plants that produce blossoms as part of their reproductive cycle.

Flower Plants

Fruit plants are cultivated for their edible fruits and can enhance your landscape with beauty, fragrance, and functionality.

Fruits Plants

Ground cover plants are low-growing plants that spread quickly over the soil surface, creating a dense carpet of foliage.

Ground Cover Plants

Our Plants

Indoor plants are plants grown inside homes, offices, or other indoor environments.

Indoor Plants

Outdoor plants are those grown in gardens, yards, parks, and natural landscapes.

Outdoor Plants

Medicinal plants are those that have therapeutic properties or beneficial effects on human health.

Medican Plants

Palms are tropical and subtropical plants characterized by their large, fan-shaped or feather-like leaves.

Plams & Cycads Plants

Our Plants

Trees are perennial woody plants with a single main stem or trunk, supporting branches and leaves.

Trees Plants

Exotic plants are species that are native to regions different from where they are being cultivated.

Exotic Plants

The term "Money Plant" commonly refers to several different plants believed to bring good luck.

Money Plants

Avenue plants are trees or tall shrubs planted along roads, walkways, or driveways, usually in a linear arrangement .
